 REMARKS  
 25X1

1. Between 17 June and 2 July 1951, about 10 to 12 single-engine fighters, some high-wing monoplanes, and biplanes were still parked at Strausberg airfield. There was no flying. Seven fighters practiced formation flying on 19 June. Individual flights were made by fighters on 2 July. Motor vehicles which entered and left the field during the period of observation

25X1

2. On 1 July, five of the eight fuel containers previously stored at the field had been set into the ground and were being utilized. The remaining three tanks were still stored on the ground. One tank truck was being refilled.

3. On 20 June, three twin-engine transports each towing a cargo glider flew over Strausberg at an altitude of 300 meters. The planes headed northwest flying in a wide formation. \*\* The cargo gliders had an estimated capacity of about 20 to 30 men.

25X1

\*\* Comment. It has not been determined to which unit the aircraft are assigned.
